THE MEGA RANGE FOR PROFESSIONAL OPERATIONS

The AIXAM PRO's range ideally suits professional logistics operations; transporting goods, loading, unloading and multi drop transport applications.

Its compact size is a great asset ideal for nipping down narrow streets or difficult-to-access areas. Compact with a large load volume and exceptional interior space.

D-TRUCK is the reference for AM licence, compact utility vehicle marketplace. Robust, reliable and versatile, it is suitable for all of your activities and an essential everyday partner.

HEIGHT**

D-TRUCK

INTERIOR

WITH ITS STYLISH LINES,
THE CABIN HAS BEEN DESIGNED
BY THE AIXAM PRO TEAM AS A STYLISH
AND FUNCIONAL SPACE.

OPT FOR COMFORT

ERGONOMICS

The low floor and absence of console make it easy to move around the passenger compartment. The ultra-supple automatic gearbox and the easy-to-reach gear make manoeuvres easy and daily trips more comfortable and less tiring. The anti-slip washable seats are comfortable.

SAFETY

Reinforced cabin and doors, panoramic windscreen for a good view and extra-powerful headlamps to be seen: well considered to ensure passenger safety. The passenger compartment has many storage spaces (glove box, storage cubby hole in the door and under the seat) to avoid objects turning into projectiles.

ACCESSORIES DESIGNED FOR COMMERCIAL APPLICATIONS.

Sign kit

Tow bar

Protection bar

Reflective strips

The reflective strips are a safe way to highlight the vehicle in darkness to protect against danger.

The LED warning light, the AK5 triangle, the reversing sound signal and the reversing light (as standard) are all tools to make interventions on public roads safer. They reinforce standard signalling in hazardous or accident-prone zones.

These devices make personnel visible and are particularly useful during operations in green spaces or deliveries in awkward areas. The towing hook and its electric plug allow light trailers to be towed.

AIXAM: THE POWER OF A NETWORK

AIXAM PRO,
130 APPROVED
DISTRIBUTORS IN FRANCE
AT YOUR SERVICE
EVERY DAY.

THE **NETWORK** RELAYS THE **QUALITY** OF YOUR AIXAM.

The powerful network of distributors
